

# PRODUCT DATA SHEET

## AQUAZZOL 902 - MEMBRANE ANTIOXIDANT

Aquazzol 902 is based on is an acid salt, highly efficient reducing agent, which is developed to remove oxidants harmful to NF/RO. Its instant action removes oxidants without any time delay makes it suitable for on line dosing.

### PRODUCT BENEFITS

- ❖ Liquid product for ease of application
- ❖ Suitable for NF / RO
- ❖ Compatible for wide range of membranes materials instantaneous reactions.
- ❖ Excellent anti degrading property

### GENERAL SPECIFICATIONS

Appearances	Colorless viscous liquid
Specific gravity	1.12 ± .02
pH as supplied	5-6
Water Solubility	Complete

\* All figures are approximate

### TREATMENT & DOSAGE REQUIREMENTS

The dosing solution to be prepared in RO permeate water at 5-10 % concentration. The dosing requirement is 3 ppm/ppm of oxidant

### PRODUCT SAFETY & HANDLING INFORMATION

Available on request

### PROTECTIVE EQUIPMENT

Wear suitable gloves and eye/face protection equipment.

### PACKING

Available in 35 kg drums.
