**LETTER OF APPRECIATION**

Mr.Raja, Service Engineer from M/s ADIL had carried out online cleaning of UF Module & offline cleaning / replacement of RO module in our Power Plant. During the said work, he presented himself continuously without rest till completion of the work which took around 48 hours, owing to the criticality.

We sincerely appreciate his efforts and dedication towards the work to meet the customer satisfaction despite having his own personal commitment.

We also appreciate M/s ADIL for providing prompt and efficient provision of services for supporting the customer without interrupting the operation of the Power Plant.

We wish him all the best in his endeavors.

(S.Murugesan)

Senior Manager (Power Plant / Projects)
